Flexible Tubing (Disposable)

These plastic gavage tubes are flexible to reduce trauma, translucent to visualize delivery, and disposable to eliminate the cost of cleaning and the chance of compound crossover. Flexible tubes are a recommended animal welfare refinement over rigid metal tubes. The tube and luer hub are made of the same material used to make plastic syringes. The soft, bulb-shaped tip is designed to reduce the chances of inadvertent placement in the trachea and perforation of the esophagus. Available in 11 sizes for rodents ranging from mouse pups to rats to rabbits.

- Packaged 5 needle per sterile peel pouch - 50 Pouches per box

Ordering Nr.	Needle Style Material	Gauge x Length	Ball Diameter	Pack Size
FTP22-25	Flexible Plastic (Teflon)	22G x 25 mm	1,2 mm	250
