Face Masks for mouse

Features

For inhalation anesthesia without respiration support, UNO has Face masks available;

All models are to be connected to a supply system for anesthetic gas (like vaporizer and flowmeter or univentor). The second connection is to a gas exhaust system which safely removes the exhaled/ non used anesthetic gasses; like the UNO Gas Exhaust unit.

Face mask for mouse

- with small nose cone specially designed for use with mice
- excellent gas exhaust*
- good cleanability

* in combination with the UNO Gas Exhaust Unit

Fixator for face masks

The face masks are shaped with a flat bottom but sometimes you want to have it secured to a certain place. For this fixators are available.

- Made in Stainless Steel
- To keep the face mask in place, f.i. on a heating plate.
