## Face Mask for rat

### Features

For inhalation anesthesia without respiration support, UNO has Face masks available

All models are to be connected to a supply system for anesthetic gas (like vaporizer and flowmeter or univentor). The second connection is to a gas exhaust system which safely removes the exhaled/ non used anesthetic gasses; like the UNO Gas Exhaust unit.

### Face mask for rat

- With larger nose "cone" for gas supply
- To be used with rats (and mice depending on type of operation).
- Gas exhaust and cleanability as for the mouse face mask.

\* In combination with the UNO Gas Exhaust Unit.

### Ordering number

| Ordering number | Product       | Details                             |
|-----------------|---------------|-------------------------------------|
| 180000237       | Face Mask Rat | ID Supply: Ø 19 mm                  |
|                 |               | ID Exhaust: Ø 29 mm                 |
|                 |               | Overall dimensions: 81 x 33 x 33 mm |
|                 |               | Connection Supply hose: Ø 4 mm      |
|                 |               | Connection Exhaust hose: Ø 22 mm    |

## Fixator for face masks

The face masks are shaped with a flat bottom but sometimes you want to have it secured to a certain place. For this fixators are available.

- Made in Stainless Steel
- To keep the face mask in place, f.i. on a heating plate.
