Blunt Needles

Luer Stub Adaptors

Blunt needle adaptors, commonly known as LSA's, are perfect for connecting infusion tubing or catheters to a syringe or other male luer device. They feature burr free, polished and passivated stainless steel tips with plastic hubs color coded for gauge identification. Luer Stub Adaptors ship sterile (EtO) in boxes of 50..

They can be ordered bulk non-sterile or with injection sites.

Add C to the catalog number for PosiGrip with injection cap

Add BC to the catalog number for PosiGrip with safety or needleless injection site

Injection Sites

Male Luer, Needleless, & Clave Accessories

Male Luer Injection Site for repeated access to a Vascular Access Port using a regular hypodermic needle.

Cat. No. MLC-100, packaged 100 per box, individually sterile

Needleless Safety Site for repeated access to a Vascular Access Port with a blunt needle, a luer stub adaptor.

Cat. No. BC-80147, packaged 100 per box, individually sterile

Microclave, a needle free design with a closed sealing mechanism to reduce accidental needle stick exposure, risk of contamination and infection due to repeat needle sticks. It provides easy connect and disconnect without compromising sterility.

Cat. No. MCC-50, packaged 50 per box, individually sterile.
